Spoke with Mr Frederick Sullivan, obtained the following compliments and wanted to share it with you:

It was helpful to deal with one person to streamline the work with the crews

I was gun shy due to a prior experience with another roofer. Yet, this was a totally different experience .

They worked above and beyond the expectations on the workmanship.

The Contractor stated it was offensive to him personally to not be able to find the solution and made it his personal mission to find the problem and get a permanent fix.

They hired people that had experience and executed professionally. They were beyond nice and helpful.

Cory will be my Go TO person for all further and future repairs/remodeling.
